

Covid-19 Visitor Information

Update - 24th March 2021

In order to protect you and our staff, we have taken the difficult to decision to limit footfall within the hospital, and have been observing social distancing on the Kensington Wing throughout the pandemic. We are pleased that following the improving situation in our community and government guidelines, we have been able to lift some of the visiting restrictions.

For antenatal appointments including scans: One partner can be present from the 12th April. We ask that they wait outside the ward environment; due to social distancing and limited space in the Kensington Wing reception, and come through when you are called for your appointment.

For antenatal inpatient, labour and elective admissions: One supporter may be present.

We require:

- Your supporter to remain outside the ward until you have 'checked in' independently at reception. Your supporter will be invited in by our reception team when safe to do so. Additional seating has been provided.
- Temperature check/ face covering on arrival in hospital.
- Temperature check/health declaration form to be completed by your supporter for entry onto Kensington Wing.
- Face mask on at all times when staff members are in your room providing care.
- Remain within your allocated room at all times.
- If your supporter chooses to leave the Kensington Wing, they may be readmitted the next day subject to further temperature checks.
- Single named supporter throughout (no tagging in and out of other visitors).

We thank you for your continued support and understanding during this challenging time. Please continue to follow all other government restrictions and guidelines.
